

Products for the Professionals

Allbrite Car Care Products has been a leading manufacturer of a complete line of cleaning & detailing products since 1965. Allbrite provides a comprehensive range of products to satisfy car care professionals' detailing needs. Allbrite makes products to clean, beautify and protect various surfaces found around automobiles such as: paint, plastic, rubber, leather, chrome, aluminum, glass, etc. Our products are mainly used by professional detailers either by hand or buffer. Since our products are very easy to use by hand, the average consumer can get professional results quickly and easily. Thus, Allbrite has the right products to get your car looking like new.

Allbrite serves the detailing industry through a number of distributors. In addition to professional quality products and excellent service, Allbrite offers our customers private labeling & custom blend formulas.

Allbrite products can be used for motorcycles, boats, recreational vehicles (RVs), motor homes and planes, since they have the same types of surfaces as cars. Since boats have gel coats, Allbrite has formulated a special compound and a wax to clean, beautify and protect them.

In 2002, Allbrite successfully introduced a line of reasonably-priced Paint & Body Shop safe products which continue to be well-received.

At Allbrite, we take pride in our product quality and consistency. In this dynamic car care industry, Allbrite has successfully responded to the changing needs of today's detailing business by developing new products through better research and innovative ideas.

Allbrite is a customer-driven company.

DRESSINGS

At Allbrite, we take pride in making interior & exterior dressings that restore, protect and provide a radiant finish. Choose from our water-based or solvent-based formulas to achieve the ultimate shine. We also carry a silicone-free dressing that is Paint & Body Shop safe. For best results, we recommend that all dressings be applied with a sponge to conserve the product, and the excess should be wiped down to avoid sling-off where silicone may get onto painted surfaces and stain them.

WATER-BASED DRESSINGS

NU IT (FP-001)

- Excellent for tires as ready to use. For interior use on vinyl, leather, wood & plastic surfaces and for engine compartment, dilute it 1/2 & 1/2.
- Makes dull surfaces look "like new."

- Provides a nice matte finish on tires.
- Thin enough for a perfect spray application and it dries in 20 min.
- Has a pleasant & refreshing lemon scent and is light green in color.

Also available in bubble gum scent. The spring bouquet version is slightly thicker than a regular Nu It, but not as much as Nu It Plus.

NU IT PLUS (FP-003)

- Same as Nu It, but it is thicker in consistency & contains more silicone.
- Gives that "wet-look" shine similar to solvent dressings.
- Brings back withered and dull surfaces to their original finish.
- Has a pleasant spring bouquet scent.
- Not recommended for spray use and do not dilute more than 5-10% because product will separate.

V6-PREMIUM TIRE DRESSING (FP-008)

- Spreads much more evenly & quickly than Nu It or Nu It Plus.
- High gloss shine that will not wash off.
- Gloss is between Nu It & Nu It Plus.
- Delivers great value and is easy to use.
- Recommended for spray or sponge use.
- Has a pleasant spring bouquet scent.

SUPER THICK TIRE DRESSING (FP-006) (not pictured)

- Same as Nu It, Nu It Plus or V6 but much thicker.
- For best results, apply either with sponge or a paint brush.
- Gives that "wet-look" shine similar to solvent dressings.

Also available in banana-scented yellow or bubble gum-scented green.

RDN - NON SILICONE TIRE DRESSING (FP-010)

- Body Shop Safe-contains no silicone, petroleum distillates or toxins.
- Provides nice gloss and a non-silicone shield on rubber.
- Recommended for tires only.

SOLVENT-BASED DRESSINGS

TIRESHINE (FP-009)

- Long lasting bumper & tire dressing that offers superior protection on all rubber and plastic moldings.
- Solvent dressing, so will not wash off easily.
- Contains high grade specialty silicones to offer the most radiant shine.
- Dries quickly with no greasy feel.
- Pleasant water melon scent.
- Not recommended for interior use due to solvent.

PRESERVER (FP-004)

(not pictured)

- Same as Tireshine, but provides more of a "wet-look," because it contains more silicone.
- Pleasant wild cherry scent.

PRLC - PLASTIC, RUBBER, LEATHER, CONDITIONER (FP-002)

- Excellent as an interior dressing.
- When used on tires, provides a nice clean black look.
- It is a diluted version of Nu It and white in color.

LEATHER CONDITIONER (FP-012)

- Developed exclusively to restore, preserve and protect leather.
- Safe for all leather surfaces.
- Contains the moisturizers and oils necessary to keep leather feeling moist & supple.
- Perfect for use after leather has been treated with Allbrite's Leather Cleaner (FP-013).

- Excellent maintenance product for other leather products such as purses, jackets, gloves, couches and more.

Allbrite also makes this product in a thicker version, which is much more creamier. To clean leather, Allbrite makes Leather scented Cleaner (FP-013).

SOAPS & CARPET SHAMPOOS

Nothing bathes your car or cleans your interior better than our soaps and carpet shampoos. They are easy to use, safe and economical. Allbrite offers a variety of soaps that are designed to quickly cut through the toughest grime. We also offer a low *and* high foaming carpet shampoo that leaves absolutely no residue in carpets.

BIODEGRADABLE SOAPS

A10-CAR WASH SOAP (FP-021)

- Strong cleaner specially designed for the car wash industry.
- Excellent for full- or self-serve car washes.
- Cleans hard surfaces thoroughly and cuts thru the grime.
- Easy to rinse off.
- Foaming is moderate and its pH is 8.
- Normal dilution is 1:60 to 1:100.

CHERRY FOAM SHAMPOO (FP-020)

- Same as A10 Soap (FP-021), but contains pleasant Wild Cherry scent and it is pink in color.

WASH & WAX (FP-023)

- Same as A10 Soap, but contains specialty silicone wax, thus it provides cleaning & waxing in one easy step.
- Excellent for hand-wash or full-serve car washes as Deluxe Polish Wax.
- Ideal time-saver that leaves a nice shine.

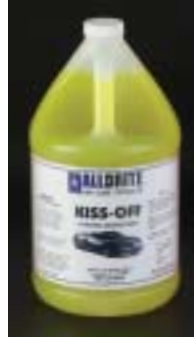

A15-DELUXE AUTO SHAMPOO (FP-022)

- Very High foaming and concentrated car wash soap.
- Dilution is 1:150 to 1:250.
- Mild cleaner compared to A10 and will not remove wax.
- pH level is about 9.

DEGREASERS

Our safe and economical degreasers cut minor to heavy grime amazingly fast. Choose from four unique liquid formulas or two powder degreasers that are designed

LIQUID DEGREASERS

KISS-OFF (FP-028)

STRONG DEGREASER

- Strong degreaser for heavy duty cleaning, but safe for all painted surfaces.
- Multi-purpose cleaner for wheels, rims, door jams, engines, tires, undercarriage and much more.
- Normal dilution is 1:4, but could be diluted more for light duty cleaning.
- Contains small amount of caustic.
- pH is close to 12.
- Use caution on hot and aluminum surfaces.

BLAST II (FP-030)

STRONG CAUSTIC DEGREASER

- Similar to Kiss-Off (FP-028), but contains a lot of caustic.
- pH is around 14.
- "Economical" Concentrated formula that is fast acting.
- Excellent for cleaning concrete surfaces and shop floors.
- Not recommended for use on painted surfaces without proper dilution.
- Normal recommended dilution is 1:10.

H1 (FP-091H1) or H5 (FP-091H5)

(not pictured)

- Economical.
- 16oz of powder makes 5 gallons of strong RTU degreaser, which will even clean greasy truck chassis and trailers.
- Dissolves easily in water.
- Perfect for washing trucks.
- H1 has more foam than H5, but H5 is a bit stronger and recommended as a floor shop cleaner.

RUG & UPHOLSTERY SHAMPOOS

PURPLE CARPET SHAMPOO (FP-026)

(not pictured)

- Designed for cleaning carpets and upholstery.
- Works well on hard surfaces too.
- Excellent for grease or oil spot removal.
- Leaves no powdery residue which can easily & quickly re-soil carpets.
- Low foaming, thus can be used in carpet extractors.
- Has pleasant bubble gum scent.

CLEAR CARPET SHAMPOO (FP-027B)

(not pictured)

- Same cleaning power as Purple Carpet Shampoo (FP-026).
- High foaming, but has no scent.

THICK CARPET SHAMPOO (FP-027A)

(not pictured)

- Thicker & foamier than Purple (FP-026) & Clear Carpet Shampoo (FP-027B).
- Has lemon scent.

to effectively clean heavily soiled areas on trucks, trailers, chassis and even shop floors in a safe and efficient manner.

APC (FP-025) *(not pictured)*

- Similar to Kiss-Off (FP-028), but APC does not contain any caustic, so it cleans slightly slower than Kiss-Off.
- pH level is about 11.

**CITRUS KLEAN (FP-032)
DE-LIMONENE DEGREASER**

- Similar to APC (FP-025).
- Contains a little bit more caustic than Kiss-Off (FP-028), but less than Blast II (FP-030)

- Contains de-limonene and has fresh citrus smell.
- Ideal for home, office or auto.
- Excellent spot remover for grease stains, even on carpet.
- Powerful enough to remove graffiti.

**POWDER
DEGREASERS**

**GLASS BRITE (FP-031)
WINDOW CLEANER**

- Ideal for all glass surfaces at home or in auto.
- Safe on tinted windows because it contains no ammonia.

- Non-streaking ready to use formula.
- Effectively removes grease, dirt and smoke residue. Allbrite also makes Glass Brite Concentrate (FP-029), which has dilution of 1:5. Use soft or de-ionized water for dilution.

ACIDS & SOLVENTS

Allbrite has a variety of acid and solvent-based cleaners that are guaranteed to fight rust, road film, water spots and grime in a safe & efficient manner. These cleaners take the mystery and effort out of the doing the job correctly every time. And because of the effectiveness of these formulas, it will cut the overall time it takes to prep the car's many surfaces.

**WIRE WHEEL ACID (FP-033)
CORROSIVE**

- One step acid cleaner designed for spoke & chrome wire wheels.
- Contains hydrofluoric and sulfuric acids. (Harsh acids)
- Not recommended for aluminum or alloy wheels & glass surfaces.
- Concentrated formula.

Dilute 1 part acid with 4 parts water and spray. Leave on for 30-60 seconds and then hose off.

**FALLOUT LIQUID (FP-046)
CORROSIVE**

- Mixture of oxalic acid and specialty surfactants.
- Removes fallout and rusted, dead paint quickly and easily.
- After preparing surface with Fallout Liquid, use Allbrite's Clear Coat Polish (FP-061) to smooth out the surface and apply Allbrite waxes for protection.

Allbrite also carries FALLOUT POWDER (FP-092) which is a multi-color product— contains surfactants.

We also sell pure oxalic acid as Hot Fallout Powder (FP-092H).

**SAFE WHEEL ACID (FP-034)
CORROSIVE**

- Safe for all types of wheels including aluminum or alloy.
- Cleans heavy brake dust and road film easily.
- Ideal for removing mild water spots on painted and glass surfaces.
- If aluminum gets a little hazy, use Allbrite's Metal Polish (FP-069) or FMP (FP-078) to restore it to a "mirror finish."

**TR2 - TAR & ADHESIVE
REMOVER (FP-042)
FLAMMABLE**

- Easily removes tar, adhesives, asphalt, and road film.
- Excellent as a carpet spot remover.
- Solvent Blend.
- Do not pour directly on painted surfaces or carpets. Apply on rag and gently rub affected area in even strokes.
- Afterwards apply Allbrite wax on the painted surfaces.
- Compliant for California use. We also carry a stronger version which has been formulated for use outside of California.

METAL POLISHES

Designed to clean, brighten & protect aluminum, chrome and other metals.

METAL POLISH (FP-069)

- Developed exclusively for Mag, Aluminum & Chrome wheels, bumpers and other metal surfaces.
- Cleans, protects, and brightens metal surfaces without scratching.
- Removes oxidation & corrosion to bring back the metal's shine and original luster.
- Not recommended for painted metal surfaces.

For softer aluminum, Allbrite makes Fine Metal Polish (FMP) (FP-078), which provides a mirror finish. FMP can also be used as a maintenance product.

CHROME & GLASS (C&G) POLISH (FP-064)

- Ideal for windows, mirrors, chrome, bright metals and porcelain tiles.
- Excellent for removing rust & tarnish from chrome.
- Eliminates scum and hard water spots from windshields.

• Provides a brilliant, protective shine that lasts. Allbrite also makes C&G Polish in Paste (FP-065), which is excellent for removing hard water spots from glass or painted surfaces. For painted surfaces use Allbrite's Buff Wax (FP-072) or Lite Polish (FP-066) for removing minor scratches left by the paste.

WAXES

We offer a wide variety of waxes to deal with different surfaces. Whether your application, Allbrite has the right wax for any job.

BUFF WAX (FP-072)

- Clear Coat Safe.
- Contains high grade silicones & carnauba wax.
- Restores and protects the original automotive shine.
- Recommended as a cleaner polish & swirl remover for dark color cars.

- Apply Allbrite's Express Wax (FP-079) for high gloss & Dura Seal (FP-080) for long lasting protection.

LITE POLISH (FP-066) (not pictured)

- Similar to Buff Wax (FP-072), but less aggressive.

ONE STEP POLISH WAX (OSPW) (FP-076)

- Combines the power of cleaning with protection of waxing in just one easy step.
- Clear Coat Safe.
- Saves precious time and money.
- Easy to use and it goes on and wipes off very quickly.

- Ideal for cars with light-to-medium oxidation.
- Leaves a beautiful gloss.
- It is similar to Lite Polish in cleaning, but gives a higher gloss finish.

CLEAR COAT WAX (FP-087)

- One step Cleaner & Wax for New paints.
- Removes swirl marks.
- Provides high gloss.
- Quick & easy to use. Similar to OSPW (FP-076), but provides more gloss.

CREAMY POLISH WAX (CPW) (FP-075)

- Similar to OSPW (FP-076), but much less aggressive.
- Creamy formula produces a magnificent high gloss.
- Good for boats & motor homes.

We also make Banana Scented CPW, known as Banana Wax (FP-086)

DAZZLE SHINE (FP-088)

- Unique cleaner that removes swirl marks.
- Cleaning, waxing & sealing in one easy step.
- Provides exceptionally high gloss and good protection.
- Easy on easy off.

POLISHING COMPOUNDS

Our compounds are designed to physically remove surface damage rather than fill it in with resins or waxes. Choose from one of our three polishes or combine any two to find that right mix that removes surface defects such as oxidation, scratches, environmental damage, road film and over spray. All three polishing compounds are silicone & wax free and are Paint & Body Shop safe. Use by hand or machine. These compounds do not provide any protection, so use Allbrite's glazes or waxes afterward. Please note, for Body Shops, Allbrite specially makes excellent compounds (CP-1012 & CP-1020) and a Glaze (NS Glaze). See Page 8 for product details.

seek long lasting protection or an easy

EXPRESS WAX (FP-079)

- A paste wax in liquid form that contains high grade silicones, carnauba wax and fine powders to smooth out surfaces.
- Works excellent to hide swirl marks and minor scratches.

- Recommended for darker color cars.
 - Faster and easier to use than paste waxes.
 - For best results, prepare surface with Allbrite's Clear Coat Polish (FP-061), Buff Wax (FP-072) or Lite Polish (FP-066).
- Allbrite also carries Carnauba Paste Wax (D-002) & Blue Paste Wax (D-003)
- Both provide brilliant gloss that lasts.
 - Blue Paste Wax is a little harder to apply, but provides more durability.

BOAT/RV POLISH (FP-067) BOAT/RV WAX (FP-068)

- Recommended for gel coat surfaces.
- Excellent for RVs & motor homes.
- Boat/RV Wax contains high grade silicones, polymer and special solvent to clean and provide anchoring for wax by removing glue like marine debris for superior protection.

We also offer Boat/RV Polish Wax (FP-068B) which combines Boat/RV Polish & Boat/RV Wax into an easy-to-use One-Step formula.

DURA SEAL (FP-080)

- An excellent paint sealant that cleans & seals in one easy step.
- Provides 3-6 months of durable protection.
- Quickly removes light oxidation and road film.
- Creates a brilliant polished surface that restores depth of color and luster.
- Easy to apply formula leaves a beautiful & radiant gloss.

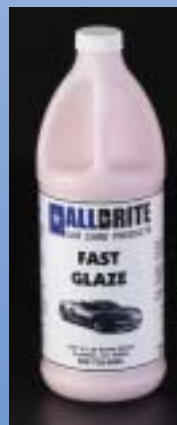

GLAZES

Whether you need a quick shine or long lasting protection, our glazes are second to none. Each has been designed to achieve professional results without tedious work, even on darker-colored vehicles.

FAST FINISH (FP-073)

- Contains no harsh cleaners or abrasives.
- Hides minor scratches and swirl marks.
- Leaves a radiant gloss, even on darker colored cars.
- Provides professional results quickly & easily.

FAST GLAZE (FP-083)

- Cleans, glazes and seals in just one easy step.
- Contains specialty polymers that create a shine that lasts longer.
- Contains more cleaner than Fast Finish.
- Designed for all types of paints.
- Works excellent as a Foam Pad Glaze.

CLEAR COAT POLISH (FP-061)

- Clear Coat Safe, contains no grit.
- Cleans & smoothes out the surface by removing minor scratches and swirl marks.
- Brings back luster to a dull finish.
- Quick & easy to use.
- For best results, use it with an orbital.

MEDIUM DUTY POLISH (FP-062)

- More aggressive than Clear Coat Polish.
- Not recommended for softer clear coats because it contains fine grit.
- Easy to use.

EXTRA HEAVY DUTY (EHD) (FP-063)

- The most aggressive of the three compounds.
- Recommended for older and enamel paints.
- Excellent for the quick removal of heavy oxidation, road film and dead paint.
- For best results, use Allbrite's Clear Coat Polish (FP-061) after EHD to smooth out fine scratches left behind.

**EASY AS 1-2-3!
SAVES TIME!**

BODY SHOP SAFE PRODUCTS

**NO SWIRLS!
EASY CLEANUP!**

STEP 1

After wet sanding, first use CP-1012 with a cutting wool pad @ 1000-1400 rpm to remove sand marks.

Buff Out Sanding Marks

CP-1012 (FP-094)

Product Description

CP-1012 and CP-1020 are both Cleaner Polishes that are designed to cut wet sand marks left by 1000-2000 grit sandpaper.

- Excellent for cutting light to medium oxidation and dead paint.
- Body Shop Safe - contains no silicone or wax.
- Contains no fillers, thus provides true cutting and leaves the surface smooth and shiny.
- CP-1012 is more aggressive than CP-1020.
- Since cleaner polishes do not provide protection, it is important to use Allbrite's NS Glaze after Step 1 & 2.

Important Note

Allbrite's 3-step system is easy to use, saves time and takes the mystery out of doing the job right the first time. The reason for using the buffer at 1000-1400 rpm is that, at lower speeds, the cleaner polishes cut better and the job gets done faster. Allbrite products do not leave any sticky, powdery residue so cleanup is quick and easy. The result is a smoother and shinier surface with less imperfections.

STEP 2

Use CP-1020 with either a cutting foam pad or soft wool pad @ 1000-1400 rpm to eliminate minor imperfections and swirl marks left behind by CP-1012 in Step 1.

Polish to a Perfect Finish

CP-1020 (FP-095)

All Products Available in Quart and Gallon sizes!

Tips

- Keep the pads flat with even pressure to get less swirl marks.
- Buff in a straight line, because the traditional use of overlapping circular motion produces swirls.

STEP 3

Use NS Glaze with a finishing foam pad or soft wool pad. NS Glaze enhances clarity and provides protection.

Improve Shine & Provide Protection

NS Glaze (FP-096)

Product Description

NS GLAZE - Non Silicone Glaze is a special glaze that enhances clarity and leaves the surface shiny with a protective gloss.

- Body Shop Safe - contains no silicone or wax.
- Contains no fillers and has very fine abrasive powders that actually remove the swirls, not just hide them.
- Improves clarity and leaves the surface shiny.
- Contains polymer for protection and will not wash off easily. Thus, a car detailed with NS Glaze will not dull within a few washes, which means that the customer will not bring it back and complain after just one or two washes.
- It is easy to do a final cleanup because Allbrite products do not leave any sticky, powdery residue.
- After you wash the vehicle, there is no need for a hand glaze. Just use Allbrite Show Shine (FP-048) to enhance the gloss for customer appeal.

FRAGRANCES

WATER or OIL BASED

Wide selection of popular & pleasant long lasting scents.

- Baby Powder
- Green Apple[†]
- Piña Colada
- Bubble Gum
- Honeysuckle
- Rose
- Country Spice
- Icy Mint
- Spring Bouquet
- Forest Pine
- Jasmine
- Strawberry
- Fresh Leather*
- Lemon Twist
- Vanilla
- Georgia Peach[†]
- Musk
- Water Melon
- Giorgio Type
- New Car
- Wild Cherry

* Available only in oil based fragrance.

[†] Available only in water based fragrance.

ODOR NEUTRALIZER (FP-036)

- Neutralizes & eliminates undesirable odors from smoke, foods, pets and mildew.
- Spray into carpets and vents to leave pleasant & refreshing scent.
- Economical and easy to use.
- Ideal for car, home or office.

SPECIALTY ITEMS

Our specialty items aim to help meticulous detailer or connoisseur to achieve picture-perfect results. Without tedious work, detailers can provide value to their customers. Also included are items specifically designed for self-serve and full-serve car washes.

SHOW SHINE (FP-048)

- Final detailer that adds a radiant shine to previously detailed cars.
- Perfect for maintaining show-room cars in top condition.
- Quickly removes dust, fingerprints and smudges.
- Contains wax, silicones & polymers to provide that "wet look" and durability.

Due to wax content, not recommended as a clay lubricant.

Allbrite also carries a non-silicone version of Show Shine (FP-048N) for the Paint & Body Shop market.

RENU IT (FP-014) BUMPER RENEWER

- Protects bumpers, moldings and plastic trim from water, dust and environmental damage.
- Easy to use and leaves a long lasting shine.
- Concentrated formula.
- Makes faded bumpers and moldings look like new.

DRY WASH (FP-077)

- Cleans the car without the use of water.
- Clear Coat Safe & easy to use.
- Provides excellent protection and a high shine on the car's surface.
- Make sure to remove loose dust particles by either rinsing or thoroughly dusting off, then spray Dry Wash and rub it like a wax.

FABRIC PROTECTANT (FP-081)

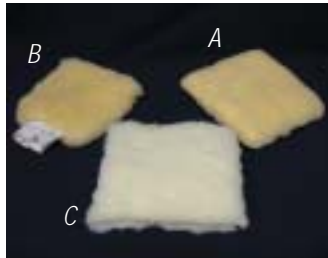

- Safe on natural or synthetic fabrics.
- Provides a high degree of water repellency and does not hinder the fabric's breathability in any way.
- Solvent-based formula.
- Environmentally safe.

CLAY LUBRICANT (FP-053)

- Lubricant for clay.
- Contains specialty silicones and polymers that provide streak-free shine.
- Can be used as a final detailer; however, for this use, we recommend Show Shine (FP-048) instead.

DETAIL ACCESSORIES

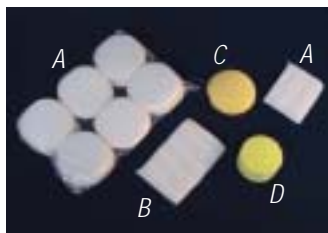

WASH MITTS

Item ID	Description
A. D-004	9x9 Wash Pads
B. D-005	9x9 Wash Mitts
C. D-005A	9x9 White Wash Pads
D-005B	11x11 White Wash Pads (NS)

BUFFER

Item ID	Description
D-075	7" DeWalt Buffer

APPLICATORS

Item ID	Description
A. D-021	Square or Round Wax Applicator
B. D-021A	Large Wax Applicator
C. D-021B	Yellow Wax Fast Appl.
D. D-025	Tire Dress Appl.

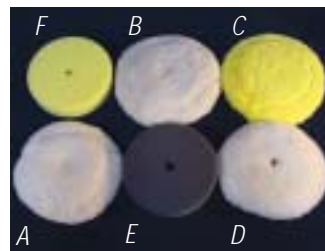

BACKING PLATE

D-010A	6" Black Foam Pad (NS)
D-011A	6" Yellow Foam Pad (NS)
D-006	58-483 Double Sided White Cutting Pad (NS)

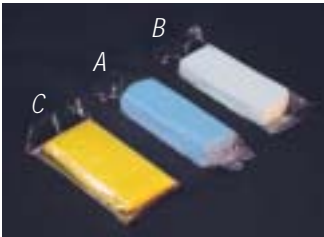

SPONGES

Item ID	Description
A. D-019	85-448 Bug Sponges
B. D-031A	85-446 Large Sponges

CHAMOIS & BONNETS

Item ID	Description
A. D-018	Water Sprites 5 Sq. Ft.
B. D-020	8.5" Terry Bonnets
C. D-020A	11" Large Terry Bonnets

CLAYS

Item	Description
A. D-065ADB	AutoWax Dark Blue Clay
B. D-065ALB	AutoWax Light Blue Clay
C. D-065Y	Eraser 4 oz. Yellow Clay

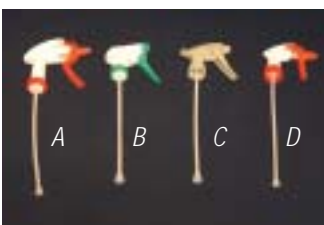

BLADES

Item	Description
D-036	Razor Blade Boxed

SPIGOTS

Item	Description
A. D-029	Spigots 3/4"
B. D-030	Large Spigots 2.0"

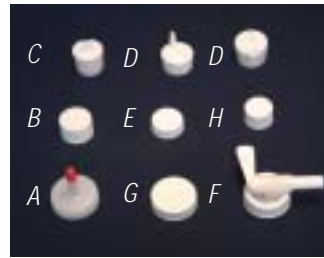

SPRAYERS

Item ID	Description
A. D-024	Jumbo Red/Wht. Sprayer
B. D-027	Green/wht Sprayer
C. D-026B	Light Gray Chem Resistant Sprayer
D. D-028	Red/wht or Blue/wht Sprayer
D-027A	Siver/Blue Chem resistant Sprayer (NS)

MISC. TOOLS

Item ID	Description
A. D-023	V-1 Cleaning Tool
B. D-039	Long Handle Scraper
C. D-040	New Rod Handle Scraper
D. D-061	5 Gal Bung Wrench
E. D-076	5.25" Red Spray Nozzel

CAPS

Item	Description
A. C-012	38-400 Red Tip Yorker Spout
B. C-013	24-410 White Cap
C. C-014	24-410 Flip Top Cap
D. C-014A	28-400 or 28-410 Large Flip Tops
E. C-015	28-400 White Cap
F. C-016	38-400 1 Gal Cap w/ Spout
G. C-017	38-400 1 Gal Cap
H. C-015A	28-410 White Cap

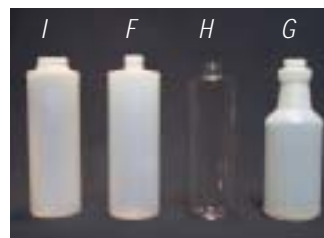

LARGE BOTTLES

Item	Description
C-005	32 oz. Bottle 28-410 (NS)
C-005F	32 oz. Bottle 28-410 Florinated (NS)
A. C-006	32 oz. Carafe Bottles 28-400
B. C-007	32 oz. Bottles w/ Handle 28-400
C. C-007A	32 oz. PVC Clear Bottles 28-410
C-029	1 Gal round or "F" Style Bottles 38-400 (NS)

SMALL BOTTLES

Item	Description
A. C-001	2 oz. Bottles 24-410
B. C-002	4 oz. Bottles 24-410
C. C-002A	4 oz. Clear PVC Bottles 24-410
