ON THE JOB SINCE 1893

Partnering with Distributors

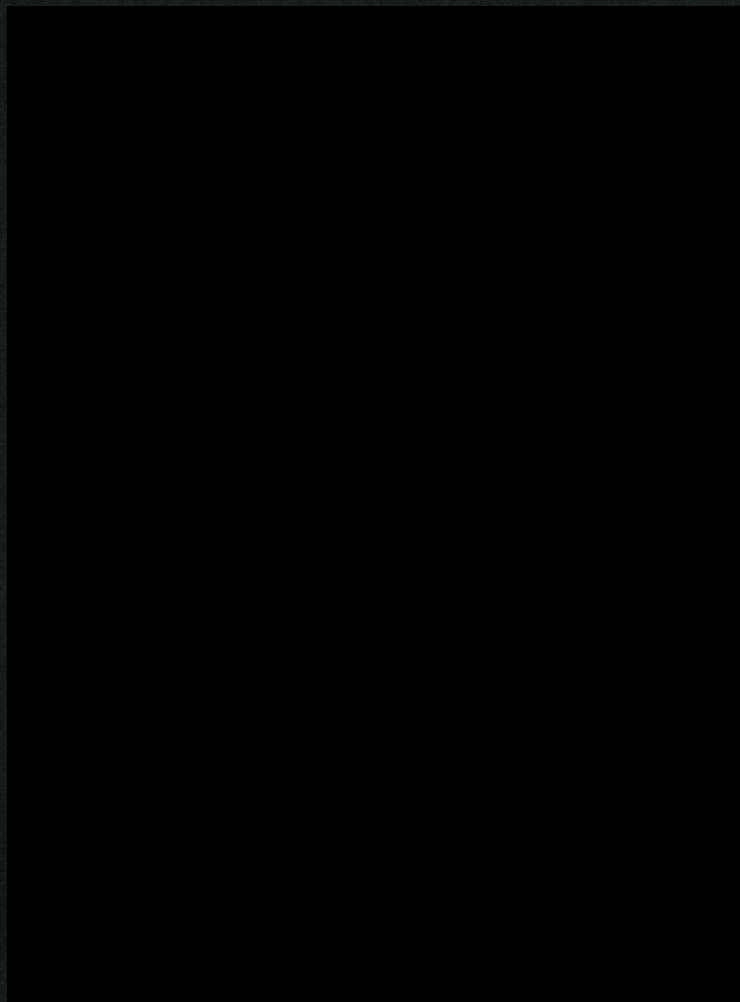

Est. 1893

In 1887, a farmer living in Kewanee, Illinois invented a unique corn husking tool. He named that tool, which was a husking pin, the Perkins Boss Husker.

In 1893 the Perkins Husker Company was reorganized and emerged as Boss Manufacturing Company. The new company conceived the idea of manufacturing work gloves by taking note of the apparent needs of farmers in the Kewanee area. It was common practice in the early 1890's for farmers' wives to purchase cloth goods and make work mittens for their husbands. The Boss story from that point on is one of continued growth and sustained success as a leader in the glove industry.

Today, the Company's headquarters are still in Kewanee with distribution centers and sales personnel located throughout the United States and Canada. Boss has kept up with emerging technology and sophisticated distribution techniques to meet the needs of a complex and ever changing marketplace.

Through all of the changes one thing remains true, our unyielding commitment to provide quality products at competitive prices. Our number one priority is complete customer satisfaction.

Cotton

The oil riggers glove of choice

Boss Rigger™, the glove of choice for oil riggers.

The heavy textured Boss Cord™ material is designed to provide the ultimate level of surface tension necessary to significantly reduce saturation and maximize abrasion resistance. The normal cotton glove absorbs oil like a sponge leading to rapid saturation and a very short wear life. The heavy textured Boss Cord™ significantly reduces oil saturation. This textured surface, along with fluorescent orange PVC dots enhances its wet grip capability, and at the same time makes the glove highly visible for safety.

The Boss Rigger™ is a wing thumb style for maximum lateral movement throughout the glove. The wing thumb design eliminates the seam in the main wear area, prolonging the life of the glove.

The ultimate in oil protection...because when it comes to gloves, *BOSS* knows.

1BP5520 Boss Rigger™

100% Heavyweight corded cotton, wing thumb. Size: L

1BP5504 100% cotton flannel, straight thumb. Size: L
