CLC
WORK GEAR®

HIGH VISIBILITY

Our safety vests are designed for visibility, fit, and comfort. Available in a full range of sizes, they have large arm cutouts and tapered v-neck tailoring. Made of 100% polyester, these vests resist fading and clean easily. Check the vest's ANSI rating to make sure it is appropriate for your minimum requirement for visibility in traffic or around moving equipment.

» Refer to a CLC Sales Representative to see the entire line of CLC Safety Vests or visit our web site at www.goclc.com.

Medium Industrial Kneeling Mat

- › NBR material will not degrade with oil or petroleum contact.
- › Unique handle location provides more useful kneeling area.
- › Excellent shock absorption and cushioning properties.
- › Silicone free material.
- › 14" x 21"

LOW LIGHT DESIGN

A whole new concept in work gear, our Hi-Viz™ line is both functional and stylish. We've taken the bright lime-yellow used on fire engines and safety vests, incorporated light reflective striping, and created a new "high visibility" line. Add a safety vest and you'll dramatically increase the likelihood of being seen in conditions with limited ambient light.

» Refer to a CLC Sales Representative to see the entire line of CLC Hi-Viz Gear™ or visit our web site at www.gocl.com.

Light reflective elements add to visibility. (low light photo)

› 10" Webbing loop with dual channel lock for secure tool attachment.

› Carabiners for secure belt and tool attachment.

DROP PROTECTION

Tool lanyards attach securely at one end to a worker or a structure and at the other end to common hand tools to help prevent dropped tool accidents. Our tool lanyards include features like interchangeable tool ends, strong webbing loops with dual-channel cord locks, and easy to put on wrist lanyards. Plus our lanyards provide extra working lengths, or extended reach, compensating for the most common instance in which tools are dropped.

› Refer to a CLC Sales Representative to see the entire line of CLC Lanyards or visit our web site at www.gocl.com.

3 TOOL ENDS

1025

Interchangeable End Lanyard (41"-56")

ELEVATED SAFETY

Whenever large tools and parts need to be lifted to an elevated work platform the safest way is generally with a crane that incorporates a securely attached utility bucket appropriate for the load. CLC offers a number of heavy-duty cotton canvas utility buckets that fill various needs for aerial tool and equipment lifting. And when the load isn't so big make sure you're wearing one of our tried-and-true back support belts.

» Refer to a CLC Sales Representative to see the entire line of CLC Canvas items or visit our web site at www.gocl.com.

111
