HD & EC Class Installation Kits	57
Retail Packaged Products	59

Excalibur Wheel Accessories has the lug nuts to meet your needs. With four class levels Excalibur can supply the product that fits your budget without sacrificing quality.

MC (Mclean) Class :

MC Class LIFETIME FINISH lug nuts use the highest grade material Excalibur offers. These parts are ideal for corrosive climates and carry a lifetime warranty against rust. Also, meeting or exceeding SAE J995 Grade 8 and SAE J2283 mechanical specifications, they are a perfect fit for your SUV or high performance vehicle applications.

HD Class :

Ideal for SUV or high performance vehicles, HD lug nuts are a cut above the rest. Starting with a high-grade material, these parts are through-hardened to ensure a material hardness that can withstand some of the most demanding industry applications. These lug nuts meet or exceed SAE Grade 5 and SAE J2283 mechanical specifications.

HD+ Class :

Using the same high quality, through-hardened material as the HD lug nuts, the HD+ lug nuts use a microporous chrome layer to offer enhanced rust resistance, and are ideal for mildly corrosive environments.

EC Class :

EC lug nuts are ideal for passenger car applications in non-corrosive climates.

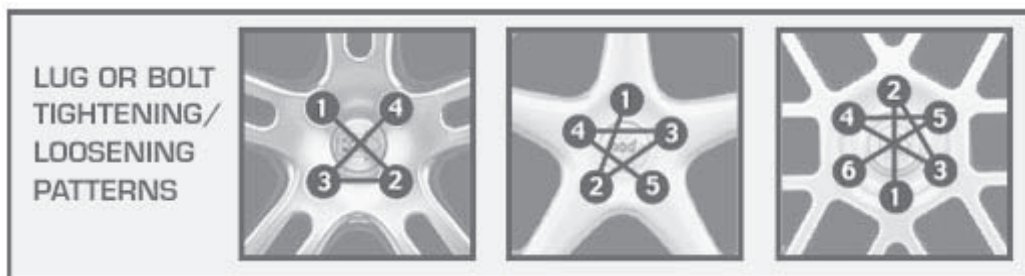

EC+ Class :

Using the same high quality, material as the EC lug nuts, the EC+ lug nuts use a microporous chrome layer to offer enhanced rust resistance, and are ideal for mildly corrosive environments.

WHEEL LUG NUT & WHEEL LUG BOLT TORQUING

IMPORTANT!

Proper installation requires that the wheel lug nuts or wheel lug bolts be torqued to the recommended specification for your vehicle. These torque specifications can be found in your vehicle's owner's manual or obtained from your vehicle dealer. Manually tighten the lug nuts or lug bolts with an accurate torque wrench. Use a crisscross sequence (shown below) until they have reached their proper torque value. Be careful because if you over torque a wheel you can strip a lug nut or lug bolt, stretch or break a wheel stud, and/or cause the wheel, brake rotor and/or brake drum to distort.

NOTE

When installing new wheels you should re-torque them after traveling the first 50 to 100 miles. This is necessary because as the wheels break in they may compress slightly allowing the lug nuts or lug bolts to lose some of their torque. Simply repeat the same torque procedure listed above.

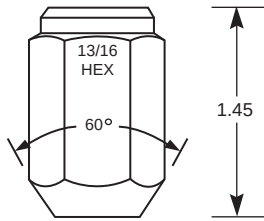

NOTE

The thickness of an aftermarket wheel can differ from the Original Equipment wheel; therefore, you must verify that enough threads will be engaged by the lug nuts or lug bolts. Refer to the chart below to determine the minimum number of turns or the depth of engagement typical for your stud or bolt size. Number of turns does not include turns in the shank portion of the lug nut if using mag or ET type lug nut.

Size of Bolt or Stud	Minimum Number of Turns	Minimum Depth (mm)
7/16 – 20	7.50	9.50
1/2 – 20	8.50	10.8
9/16 – 18	8.50	12.1
5/8 – 18	9.50	13.5
10mm x 1.25	7.00	8.50
12mm x 1.25	8.00	10.20
12mm x 1.50	6.50	10.20
12mm x 1.75	6.00	10.20
14mm x 1.50	7.50	11.90
14mm x 2.00	6.00	11.90

From Concept To Finished Product

Excalibur Wheel Accessories has the technology and years of expertise to take a concept, manufacture it to your specifications, design and print your customized packaging and get it delivered to your doorstep on time. From wire wheels to specialty tools, we have it all!

◆ **Research & Development**

◆ **Project Supervision**

◆ **Project Analysis**

◆ **One-on-One Relationship**

◆ **Graphic Arts & Design**

◆ **Packaging & Delivery**

Our in-house factory staff of engineers, graphic artists and production management are capable of processing your custom project from start to finish. At our factories we control every aspect of the manufacturing process.

Experience is what counts and Excalibur has been in the automotive aftermarket business for over 10 years. We have an array of designs, colors and styles available with manufacturing capabilities helping you get the final product you're looking for.

No project is too large or too small. Our manufacturing facility is state of the art and can give your company that extra edge needed for today's competitive market.

For more information about our manufacturing capabilities, please contact our sales department.

**Excalibur products meet rigorous quality standards.
We are proud to offer ISO Certified products.**

Excalibur means quality parts & service

-  **ISO 9002 & TS 16949** certified products
-  **High Grade** material available for all lug nuts
-  **East Coast & West Coast** warehouses to serve you better
-  **Widest assortment** of wheel accessories in the industry

RETURNS POLICY:

Returns must be authorized by prior written **“Returned Goods Authorization” (RGA)**. Returns must be sent **“Freight Prepaid”** with **RGA Number** clearly marked on packing slip for proper processing of any credits allowed. All returns are subject to inspection for claimed defects, and non-allowed defects will be returned to sender, freight collect or scrapped as instructed.

LIABILITY STATEMENT:

Products provided by Excalibur Wheel Accessories are **“AS IS”** and without any representation or warranty of any kind, either express or implied, including, but not limited to warranties as to merchantability, fitness for particular purpose or otherwise, or non-infringement of third party rights.

While great care has been taken in production of the material to ensure it is accurate, Excalibur Wheel Accessories shall not accept any liability to any person for any losses to any person howsoever arising including, but not limited to, consequential losses. The diversity of usage of our products means that it is the absolute responsibility of the user to ensure that our products are fit for their intended usage and any technical information regarding the properties of materials, sterilization, heat resistance or other matters are for general guidance only.

Excalibur Wheel Accessories are warranted under normal and reasonable use to be free from defects in workmanship, materials and structural integrity for a period of six months from original purchase. This warranty excludes surface rust which can be prevented by proper care. Wire wheels are also excluded and are covered under a different warranty. Subject parts must be returned according to the above Returns Policy. A complete Product Warranty Policy is available from your salesman.
